Save the Date

The Conference of the Americas on International Education (CAEI), the continental forum dedicated to the internationalization of higher education, extends a warm invitation for you to join us at CAEI Chile-2021. Organized in collaboration with the Chilean government and higher education national networks, CAEI's seventh edition is scheduled for October 2021. Given the ongoing situation regarding international travel, this event will be hosted in a hybrid modality, offering on-site face-to-face interactions with key stakeholders and a fully-fledged virtual conference platform for distance participation. Be a part of this important gathering of experts, decision-makers and international representatives where we will chart the future of academic cooperation in the Americas.
